***Sometimes keeping it all together gets harder each day!
Whether it needs to be managed by you, or put together
by your customer, Global is here to help you make it happen!***

Customized Packaging

Global Fastener & Supply offers customized packaging options to help increase your efficiency and productivity. Whether for manufacturing or service departments, our highly experienced packaging experts will work closely with you to customize a solution to meet your packaging needs. Currently we provide custom packaging kits for an amazing range of industries, such as:

- Sporting goods
- Prefabricated buildings and furniture
- Garage doors
- Playground equipment & more!

If you need to keep it together or get it assembled, our automated machines and hand assembly departments are ready to service your requests. Ask your sales rep for further information on the following types of packaging:

- Polybags (clear & white/clear)
- Small or Large cartons
- Plano boxes
- Custom cartons

Our customized packaging services are waiting to help you on your next project.

Our quality system is certified to be in compliance with **ISO9001:2008**

Inventory Management Programs

With over 24 years in the industry, Global Fastener & Supply has learned the importance of helping customers manage their inventory. Global offers an array of customized programs to meet the needs of customers in any industry. Each program will assist your company in reaching any or all of the following goals:

- Increase cash flow
- Decrease inventory
- Increase warehouse space
- Decrease handling
- Increase efficiencies in production
- Decrease in activities related to purchasing, receiving and quality
- Increase in tracking and monitoring production items

Global works with a variety of different types of programs to insure that the most effective one has been designed for your company. Whatever goal you are looking to meet, Global's service team is ready to meet the challenge.
